Positive Life Change is Only One Step Away

Terry Stueck's background as a missionary pastor and recovery counselor give him a unique perspective to deliver the 1st century truths of the Christian life that are the POWER of the Gospel to totally transform lives. Terry's eye opening presentations to churches, non-profits and corporations enlighten and motivate audiences to new goals and heights they previously had never dreamed existed. His basic presentation of the principles laid out in the scriptures provide a framework upon which an individual can ultimately cure anger, stress and the daily frustrations of life. The listener is able to see new paths and open doors that lead to a change in the inner person. Terry puts legs to the age old message of the Sermon on the Mount that brings alive the basic understanding how to have true lasting life change. When individuals are presented a higher aspiration and are given the tools to accomplish that goal, they can meet the objective and have a more successful happier life and relationships.
